## AV MULTIMEDIA DESIGNERS

Novita has specialized in designing a wide range of information, communications and presentation systems since 1982.

We are an independent consulting and design office only. We do not sell equipment or represent manufacturers or suppliers.

We understand how clients can use technology to inform, persuade and teach. We believe that technology is a means to an end, not an end in itself.

We design systems and equipment with an integrated approach, bringing together a number of disparate technologies into a single system package. We want the attention of the audience to be directed towards the content of the presentation, not the technology.

Novita's staff have a wide range of qualifications and experience in Audio-Visual Multimedia design. In addition to formal and in-service training, many have worked in other aspects of the industry such as installation, operation, and technical support.

### Our AV Multimedia Services Include:

- Broadcast Systems
- Audio Reinforcement and Effects
- Specialized Lighting and Effects
- Audio Paging and Monitoring
- Video Monitoring
- Large Format Video Display
- Optical Film Projection
- Assistive Listening and Simultaneous Translation Systems
- Teleconferencing and Video Conferencing
- Combined Room Controls
- Control Rooms
- Digital Signage

## **BUTTERFLY CONSERVATORY**

**Location:** Niagara Falls, Ontario

**Project Owner:** Niagara Parks  
Commission

**Date Completed:** 1996

**Cost:** \$ 10 million

**Architect:** Baird Sampson Neuert

**AV Multimedia Consultants:** Novita

Image credit: Novita

This interpretive centre for moths, butterflies, and their environment features over 2,000 colourful tropical butterflies floating freely among lush, exotic blossoms and greenery. Paths wind through the rainforest setting, past a pond and waterfall and the Emergence Window, where butterflies leave their pupae and prepare to take their first flight.

*Emergence Window*

We provided services related to building programming and operations, visitor experience, the presentation theatre and the audio visual infrastructure.

## DESIGN EXCHANGE

Location: Toronto, Ontario

Project Owner: Design Exchange

Date Completed: 1994

Project Cost: \$6 million

Architect: KPMB Architects

AV Consultants: Novita

Image credit: Robert Burley

The Design Exchange is the national research and exhibition centre for design and design industries in Canada. It is located in the former Toronto Stock Exchange in the heart of the financial district. It is a provincially designated heritage building and the finest example of Art Deco architecture in the city.

The Trading Floor is the facility's main exhibition room and is equipped with retractable seating for theatre-style events. There are a number of other smaller exhibit and program rooms throughout the facility.

We designed a comprehensive, inter-connected information technologies system including: building wide audio, video, data, and communications networks. We also designed all the electronic presentation systems for the Trading Floor, exhibit areas, and meeting rooms.
